PROFESSIONAL EXPERIENCE

Web Developer, Independent Contractor, Nashville, TN   November 2022 - Present
- Restructured client's website to be mobile responsive and implement **SEO** best practices using **HTML, CSS, JavaScript** and **jQuery**. Thus resulting in a **32% increase** of web search visibility.
- Developed a startup company's mobile responsive **SEO** MVP with **React, NextJS** and **TailwindCSS** technologies boosting their **brand awareness by 100%**.

Junior Software Engineer, Coroutine, Boulder, CO (Remote)   September 2022 - November 2022
- Developed a secure chat application using **Ruby on Rails, Stimulus, Turbo** and **TailwindCSS** to be used internally within the Coroutine development team. This app would save the company valuable time, resulting in a **20% increase in productivity**.
- Contributed to the codebase of an **enterprise website** by refactoring the **HTML** to include custom HTML Tags and attributes to automate MetaData via the Administrator panel. This contribution would allow updates to be made through the **UI**, resulting in **2x the production speed**.

PROJECTS

Nash Clothing
- **Ecommerce mobile-responsive SPA** featuring **TypeScript, Styled Components, Redux** and **Stripe.** The app includes five main categories, a shopping cart with real-time updating on quantity and price, and a checkout component with a functioning payment form utilizing Stripe.

Sayre Joan Photography
- A mobile responsive seven page portfolio website built with **HTML, CSS, JavaScript** and **jQuery.** Photos displayed in a grid are clickable and link to an animated modal featuring the larger image.
- This is an inherited website that I rebuilt with a cleaner, more efficient code structure, and added **MetaData for SEO** purposes.

EDUCATION

Complete React Developer in 2023 (w/ Redux, Hooks, GraphQL), Zero to Mastery Academy
Web Development Certification, Vanderbilt University Boot Camp
